Full Stack Developer | MERN Stack Developer | React + Node.js

Results-driven Full Stack Developer with 2+ years of experience building scalable web applications using MERN stack and TypeScript. Proven expertise in developing secure authentication systems, RESTful APIs, responsive user interfaces, and optimized backend architectures. Skilled in translating business requirements into technical solutions with clean, maintainable code.

WORK EXPERIENCE

SoftData In

Oct 2024 - Present

Full Stack Software Developer

- Developed full-stack pharmacy platform with product catalog, user authentication, order management, and dashboard features using MERN stack and TypeScript
- Built comprehensive inventory management system with real-time stock updates, invoice generation, and analytics dashboard with Chart.js for data visualization
- Developed e-commerce platform with shopping cart, booking system, and PayPal payment integration including admin panel for product management and order tracking
- Built interactive travel portal featuring destination pages, pricing modules, inquiry form system, and custom React hooks for reusable logic
- Designed responsive business landing page with AOS animations, product showcase functionality, and backend API integration for admin features
- Rebuilt UI components using React and Tailwind CSS resulting in improved component reusability and faster page load times
- Integrated third-party services including Cloudinary for image storage, PayPal API for payments, and JWT for secure authentication

Nass Technology

Oct 2023 - Oct 2024

Full Stack Developer Intern

- Built pharmacy billing and export system using MERN stack with real-time inventory management capabilities
- Designed MongoDB database schemas using Mongoose for invoice generation and stock tracking modules
- Implemented JWT-based user authentication with protected routes and role-based access control

SKILLS

Frontend: Bootstrap, Context API, CSS3, HTML5, JavaScript (ES6+), React.js, Redux Toolkit, Responsive Design, Tailwind CSS, TypeScript

Backend: bcrypt, Express.js, JWT Authentication, Middleware Architecture, Node.js, RESTful API Development, Role-Based Access Control

Database: Database Schema Design, Indexing Optimization., MongoDB, Mongoose ODM

Tools & Others: Cloudinary, Git, GitHub, JWT Auth, Nodemailer, Postman, Vite, VS Code, Webpack

PROJECTS

SFK Pharmacy Website — MERN + TypeScript Full Stack

- Modern pharmacy web platform supporting product browsing, ordering, authentication, and user dashboards.
- Developed full-stack pharmacy platform with product catalog, user authentication, order management, and dashboard features

EDUCATION

B.Tech in Electronics & Telecommunications Engineering
